

50kWh Outdoor Energy Storage Unit for Office Buildings

Overview

This 50kW/50kWh battery system includes ten LiFePO₄ modules, a 50kW inverter, and a smart EMS/BMS, all housed in a compact IP54 cabinet. It delivers reliable storage for peak load shaving, solar optimization, or backup support. The 50kW 112kWh energy storage system is a compact all-in-one ESS solution designed for commercial and industrial energy management. Combining lithium battery technology with an integrated inverter, this system supports peak shaving, load shifting, and reliable backup power for factories, office. The system uses cobalt-free LiFePO₄ (Lithium Iron Phosphate) battery technology, fundamentally eliminating the thermal runaway risks associated with cobalt-based lithium batteries. LiFePO₄ chemistry offers higher safety, longer lifespan, higher efficiency, and higher power density, supported by an. SafeReliable CATL LFP battery cell Double fire suppression system design 1+1 redundancy. The battery cabinet has 2*50KWH (51. 2kwh). 50kW/100kWh outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C&I energy storage and microgrid applications. Individual pricing for large scale projects and wholesale demands is available.
