

60kWh Energy Storage Battery Cabinet for Chemical Plants

Overview

High-performance 60kWh LiFePO₄ commercial energy storage system built from modular 5kWh stacked battery units. Features integrated smart BMS with multi-level protection, high-voltage architecture for industrial applications, and CAN communication for seamless system integration. Individual pricing for large scale projects and wholesale demands is available. Boasting comprehensive multi-layered safety systems, including advanced fire suppression, surge protection circuitry, industrial-grade circuit breakers, and precision relay controls, the system ensures uncompromising. The ECube 60AP 60kWh Air-Cooling Battery is designed for commercial and industrial energy storage, offering efficient temperature control for high-rate cycling. A single cluster is connected in series to form a high-voltage battery system with a maximum capacity of 614. 29 kWh usable), the GE-F60 delivers dependable performance for peak shaving, backup. Available in two configurations—30kW/50kWh and 60kWh—these cabinet-style systems house battery modules, a 30 kW inverter, and onboard EMS/BMS in a single IP54 enclosure.
