

BC batteries and solar panels

Overview

BC Hydro has announced new rebates to help homeowners invest in clean energy. Starting April 1, 2026, customers can receive up to \$5,000 for installing solar panels and an additional up to \$5,000 for battery storage systems enrolled in the Peak Saver program. The new program. British Columbia combines abundant sunshine with progressive clean energy policies, making it an excellent location for solar power. From Vancouver to Victoria to Kelowna, BC homeowners benefit from rebates of up to \$10,000 through BC Hydro, evolving net metering programs, and some of Canada's. The Solar and Battery Rebate Offer launched on July 23rd 2024 and provides rebates to BC Hydro customers who install solar photovoltaic and/or battery energy storage systems (100kW or less in size) in residential homes and businesses. This incentive makes it easier and more.
