

Congo Kinshasa brand solar power home

Overview

Backed by strong local expertise and partnerships with the world's leading manufacturers of photovoltaic panels, lithium batteries and inverters, our 100% Congolese company designs, installs and maintains tailor-made solar systems suited to the tropical climate of the Congo . Backed by strong local expertise and partnerships with the world's leading manufacturers of photovoltaic panels, lithium batteries and inverters, our 100% Congolese company designs, installs and maintains tailor-made solar systems suited to the tropical climate of the Congo . SolKin Énergie supports households, businesses, schools, hospitals and institutions across the Democratic Republic of the Congo in their transition to clean, reliable and affordable energy. This marked a significant milestone in our commitment to expanding clean energy access across Africa and bringing innovative, reliable. This is where All-in-One Solar Kits are transforming home energy access—offering a complete solar inverter battery system designed specifically to solve load shedding with solar power. What Is an All-in-One Solar Kit?

What Is an All-in-One Solar Kit?

All components are integrated into one unit. IZUBA is a solar energy company established in the Democratic Republic of Congo and headquartered in Goma / North-Kivu, that specializes in EPCM (engineering, procurement, construction and management) services for grid-tied and off-grid / mini-grid solar PV projects. IZUBA is committed to helping. From green energy solutions (solar, hydroelectric) and water-pumping systems to raw power generation (generators), GoShop supports your projects across Africa. In the DRC alone, less than 10% of the population has access to electricity.

Article Content
