

Do manufacturers of inferior solar panels provide warranty

Overview

Yes, solar panels usually come with warranties to protect your investment. These warranties, however, rarely offer sufficient coverage on. While many home appliances typically come with a basic warranty offering free replacements within a specified period, solar panels are protected by various types of warranties that cover a range of potential issues. The product warranty provides complimentary replacement of your solar panels in. This guide breaks down everything you need to understand about solar panel warranties in 2026: the three types of coverage, what each one actually protects, warranty lengths by brand, what can void your warranty, how degradation guarantees work, and exactly how to file a claim if something goes. Any reputable solar panel manufacturer will offer two warranties: a product warranty and a performance warranty. These cover manufacturing faults and guarantee a certain level of performance for your panels.
