

Electric vehicle policy brunei

Overview

When it comes to importing electric vehicles into Brunei, there are specific regulations to consider. This tax, combined with the already high upfront cost of EVs, can make them a less attractive option for. Brunei Darussalam, a nation historically dependent on hydrocarbon resources, is making a decisive pivot towards sustainable transport, directly challenging its status quo in pursuit of a low-carbon future. While the country has been slower to adopt EVs compared to its Southeast Asian neighbors, recent developments suggest a growing. which began in 2021. The taskforce is move forward the strategy. As such, its progress with government support. permanent, said. BANDAR SERI BEGAWAN: Brunei Darussalam does not need to be a 'hero' in achieving high electric vehicle (EV) ownership, Minister at the Prime Minister's Office and Minister of Finance and Economy II Datuk Seri Setia Dr Awang Mohd Amin Liew Abdullah said during the 21st Legislative Council (LegCo).
