

High-efficiency integrated energy storage cabinet for drone stations

Overview

The air-cooled energy storage integrated cabinet integrates long-life battery cells, a high-efficiency and balanced BMS, a high-performance PCS, an active safety system, an intelligent power distribution system, and a thermal management system into a single cabinet, using 120Ah. The air-cooled energy storage integrated cabinet integrates long-life battery cells, a high-efficiency and balanced BMS, a high-performance PCS, an active safety system, an intelligent power distribution system, and a thermal management system into a single cabinet, using 120Ah. The air-cooled energy storage integrated cabinet integrates long-life battery cells, a high-efficiency and balanced BMS, a high-performance PCS, an active safety system, an intelligent power distribution system, and a thermal management system into a single cabinet, using 120Ah lithium iron. A: We mainly offer a wallbox/Portable AC EV charger with an output rating from 3.5kw-44kw and an integrated floor-mounted fast DC Charging station with an output rating from 30kw-480kw. This modular. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications.
