

Is it okay to install photovoltaic panels on Main Street

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Before you start planning your solar installation, here are some essential NYC laws every building owner needs to know: Local Laws 92 & 94: Since 2019, all new buildings and those replacing their roofs must install solar panels or a green roof system, regardless of building size. Before installing a solar hot-water or a solar electric-generating system, also known as photovoltaics, you must hire a Professional Engineer or Registered Architect to be sure your building's structural system can maintain the weight of the equipment. Read on to see what this could mean for your NYC property.
