

Is there a solar panel factory in Burundi

Overview

Built through a multinational effort, the pioneering 7.5 MW solar PV plant near the village of Mubuga has been in operation since May 2021 and now provides over 10% of Burundi's electricity, supplying clean power to tens of thousands of homes and businesses. The East African Community (EAC), an economic bloc of over 300 million people, has a combined renewable energy potential estimated at over 110,000 megawatts (MW) but has only developed around 5,000 MW. This gap between potential and reality is more than a statistic; it represents a vast. Imagine your new, state-of-the-art solar module factory is fully assembled and ready for production. Located in Mubuga in the Gitega Province, the project - which is the country's first. The project is a 7.5 MW solar PV plant in Mubuga, Burundi. Partners include the UK's Renewable Energy Performance Platform (REPP), Inspired Evolution, Africa Trade Insurance Agency (ATI). ITCO Solar Energy is a renewable energy firm that specializes in the research, supply (distribution), and installation of a wide range of solar and wind energy equipment. We offer you a complete supply of equipment tailored to your demands, based on our more than 15 years of experience in both the. Burundi installed 340 kW of energy capacity in 2023, the UNDP told pv magazine, adding that the country could increase this in 2024.
