

Microgrid Energy Storage Battery Cabinet 600kW Product Specifications

Overview

The Cummins C600B5ZE provides 300 kW of power and 600 kWh of energy storage in a 20-foot ISO high cube container. It comes pre-wired and pre-configured to reduce installation cost and delivery time, and can hold up to 12 Pixii PowerShaper2 cabinets, with a maximum power capacity of 580kW. Tailored for larger commercial or industrial sites, it enables flexible energy usage through load shifting, grid support, and renewable energy integration. And. The 600KW battery storage container is the ess solar battery system that integrates battery systems, battery management system, power conversion system, high voltage transformer, electrical distribution cabinet, fire extinguishing system, fire and smoke monitoring system, and liquid cooling system. This 1. 4MWh/700kW all-in-one C&I energy storage cabinet utilizes Lithium Iron Phosphate (LFP) battery technology, featuring scalable capacity from 1MWh to 10MWh with 500kW rated power output.
