

Solar container battery storage factory in Oman

Overview

Muscat: Oman has signed a milestone agreement to develop its first large-scale solar power and battery storage facility, marking a decisive step in the Sultanate's renewable energy transition and long-term sustainability agenda. ONESUN plans to partner with a local strategic partner in the Sultanate of Oman in 2026 to jointly build localized photovoltaic + energy storage and LiFePO₄ battery manufacturing facilities to serve Oman and the broader Middle East's clean-energy transition. This 500MW facility isn't just another battery farm; it's like a giant power bank where businesses can “rent” storage space, preventing energy waste equivalent to powering 150,000 homes annually. You can contact us by email at sales@machineequipments.com for reliable Solar Batteries supplier, we are well-known for our world-class. With storage solutions and services keep your systems running on green power by day and night. Oman is building the Hydrogen hub of the future. A resilient energy system to power our world.
