

Spain solar pv

Overview

Spain's solar PV capacity reached 6 GW in 2024, making it the country's top power source with a 25.8% of total electricity production. Spain is one of the first countries to deploy large-scale solar photovoltaics, and is the world leader in concentrated solar power (CSP) production. 5 GW, of which, UNEF is the main association of the solar photovoltaic sector in Spain, with over 800 member companies, we are the meeting point, networking lobby association with the greatest representation at the national level. 1% share, surpassing wind at 24.8%. With the goal of reaching climate neutrality by 2050, the country is implementing measures to achieve a 100 percent renewable electricity mix by that year. Although wind is currently the most used renewable resource in the Mediterranean country, solar energy is growing at a very fast pace. 3 GW, as residential and commercial installations declined while industrial and off-grid segments showed greater resilience, according to data from the Spanish Photovoltaic Union.

Article Content

Spain Solar PV Industry, Size, Share, Revenue, Demand,

Explore the growth and future potential of Spain's Solar PV industry, highlighting key market drivers, government initiatives, competitive landscape, challenges, and projected expansion in the renewable

Sonnedix closes financing on 102MW PV portfolio in Spain and ...

Independent power producer Sonnedix has reached financial close on a 102MW solar PV portfolio in Spain and Italy.

Solar PV takes the lead in Spain's installed power capacity

According to data from Red Eléctrica, solar photovoltaic (PV), with a total capacity of 32,043 MW, has surpassed wind power (32,007 MW) to become

Solar becomes Spain's top power source in 2024

Spain's solar PV capacity reached 6 GW in 2024, making it the country's top power source with a 25.1% share, surpassing wind at 24.9%. Renewable generation grew 10.3%,

Solar Organic to build PV, battery factory in Spain

Solar Organic Centro España S.L. plans a solar panel and battery factory in south-central Spain with 10 GW of annual capacity for passivated emitter and rear contact (PERC) and

Solar O& M: Real Maintenance Costs of a Photovoltaic

Complete breakdown of O& M costs in photovoltaic plants: preventive vs corrective maintenance, standard contracts, cleaning, warranty management,

Spain Solar Energy Market (2025-2031) | Trends & Companies

6Wresearch actively monitors the Spain Solar Energy Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our

Solar Power Market Size, Share, Trends | Growth Report

Solar power utilizes the sun's energy as either thermal energy (heat) or photovoltaic cells in solar boards and clear photovoltaic glass to create power. The aggregate sum of solar energy

Q Energy secures financing for 252MW PV portfolio in Spain

Q Energy has reached financial close for Taurus B, a portfolio of seven solar PV plants in Spain with a combined capacity of 251.71MWp.

Solaria wins EUR 41m in state grants for agri-PV, BESS projects in Spain

Spain's Solaria Energia y Medio Ambiente SA (BME:SLR) has secured EUR 41 million (USD 47.4m) in grants from the Spanish state to develop four solar agrivoltaic (agri-PV) projects

Masdar acquires stake in Repsol's 705MW operational renewables ...

Renewables developer Masdar has acquired a 49.99% stake in a 705MW operational renewables portfolio in Spain from oil major Repsol.

Spanish Solar Photovoltaic Association | UNEF

More than 2,000 professionals, business leaders and institutional representatives will come together to discuss the present and future of solar energy. Discover the

Naturgy joins 1-MW open-sea floating solar pilot project

Spanish utility Naturgy Energy Group SA (BME:NTGY) has joined a pilot to deploy Spain's first open-sea floating solar units, agreeing to collaborate

Spain deploys 1.13 GW of solar for self-consumption in 2025

Solar self-consumption capacity in Spain reached a cumulative 9.3 GW in 2025, according to data from the Spanish Photovoltaic Union (UNEF). Spain added 1,139 MW of new self-consumption...

Solar Map Spain 2026: 97 Photovoltaic Plants with Real

Interactive map with 97 photovoltaic solar plants in Spain. Check exact location, installed capacity, free technical data, and characteristics of each solar power plant.

Noticias de energía solar y fotovoltaica | pv magazine España

Noticias y análisis sobre energía solar, almacenamiento energético, autoconsumo y mercados fotovoltaicos en España y Europa.

How solar has saved Europe €136 million per day since the

A new analysis found that Europe's existing solar fleet has already saved the continent billions in 2026.

Unión Española Fotovoltaica | UNEF

Con una representatividad del 90% de la actividad del sector en España, UNEF es portavoz de la práctica totalidad de la industria.

Solar capture factors fall across Europe as negative price hours surge ...

Latest analysis from Pexapark finds strong solar output and weaker demand caused a drop in solar capture factors in France, Germany, Italy, Poland and Spain. These countries are also

France, Germany, Portugal, Spain set daily solar records

France, Germany, Portugal and Spain all set new records for daily solar production last week, according to the latest analysis from AleaSoft Energy Forecasting.

Solar energy in Spain

Renewable energy is currently experiencing substantial development in Spain. With the goal of reaching climate neutrality by 2050, the country is implementing measures to achieve a 100

Nexwell Power Secures Funding for 250MW Solar

Nexwell Power acquired seven solar PV plants in Spain, with financing from MUFG, ICO, and Eiffel, aiming for renewable growth.

Global solar tracker market grew 19% in 2025

The global solar tracker market increased 19% year-on-year in 2025 with more than 134 GWdc of equipment shipping, according to analysis by Wood Mackenzie.

Spain Solar Energy

The Spain Solar Energy Market size in terms of installed base is expected to grow from 39.99 gigawatt in 2025 to 83.86 gigawatt by 2030, at a CAGR of 15.96% during the forecast period (2025-2030). Key

SPAIN ROUND UP: Sonnedix, Prosolia, Iberdrola

Sonnedix and Prosolia have acquired projects, while Iberdrola has signed a 34MW PPA with Burger King covering 109MW total.
