

Wall-mounted lithium battery energy storage solution

Overview

A wall-mounted lithium battery connects directly to a solar inverter or hybrid power controller, enabling bidirectional energy flow between generation, storage, and consumption. When sunlight is abundant, excess power is stored; when night falls or loads spike, the inverter draws. Maximize your distribution profits with our UL9540 certified 5kWh-10kWh Wall Mounted Battery Storage. 5-year warranty, 20-40% distributor margins, and comprehensive technical support. Enable your customers to trust in proven technology with over 500,000 systems deployed globally, ensuring your. Looking for a compact, reliable, and long-lasting battery for your solar system?

GSL Energy's 5 kWh, 10kWh 14 kWh wall-mounted lithium battery offers a cutting-edge solution for homeowners seeking energy independence. Designed for long-lasting reliability and safety, it is certified to international. EAST CHAMP Wall-Mounted Power Storage Systems are meticulously engineered to incorporate advanced LiFePO4 (Lithium Iron Phosphate) battery technology into compact units, allowing for seamless installation on vertical surfaces. This innovative design not only maximizes space efficiency but also.
